Q9 If you are a user of voting research services, do you, or will you in future check whether a service provider had signed up to the Principles before appointing them? [Yes/No]

Yes

Q10 Would it be beneficial to have a set of principles that are capable of being applied in all markets? [Yes/No] **No**

Page 4: Scope and Structure of the Principles

Q11 At present the Principles address three areas: service quality (which includes duties to clients, research methodology and voting policy); managing conflicts of interest; and communications with issuers, the media and other stakeholders (see the BPPG website here). Are there other issues or activities that should also be covered by the Principles [tick each that applies] **ESG advisory services and indices**

Q12 Each Principle is accompanied by guidance which sets out practices to be followed and information to be disclosed, on a "comply and explain" basis. Is this structure clear and appropriate? [Yes/No] **Yes**

Q13 If no, how might it be improved? **Respondent skipped this question**

Page 5: The Content of the Principles (1: Service quality)

Q14 If you are a client of one or more signatories, do you consider that this Principle deals adequately with the various service commitments that you expect? [Yes/No] **Yes**

Q15 If no, how might it be improved? **Respondent skipped this question**

Q16 Depending on the wishes of their individual clients, those signatories that make voting recommendations will follow either bespoke or house voting policies. How satisfied are you with the process used by signatories to develop their house voting policies? [Scale 0 to 5, where 0 is dissatisfied and 5 is very satisfied] **4**

Q17 How might the process be improved? **Respondent skipped this question**

Q18 In addition to national law and listing rules, which, if any of these considerations should signatories take into account when deciding whether to adjust their house policies for different markets? [Tick all that apply] **Standards in national corporate governance codes and equivalent**, **Views of local and international investors**

Q19 How informative are signatories' descriptions of their research methodologies (see BPPG website here), including how they ensure that the research is reliable? [Scale 0 to 5, where 0 is uninformative and 5 is very informative] **3**

Q20 While recognising the need for signatories to protect their intellectual property, how might the statements be made more informative? **Respondent skipped this question**

Page 6: The Content of the Principles (2: Conflicts)

Q21 The Principle does not attempt to eliminate potential conflicts, but to ensure that the signatories disclose the procedures by which they are managed. Is this an adequate approach? [Yes/No] **Yes**

Q22 If no, how might it be strengthened? **Respondent skipped this question**

Q23 The Principles include the following non-exhaustive list of potential sources of conflict: **No**

- A signatory's ownership or shareholder base/structure, such as when a signatory is owned by an investor that owns shares in companies under coverage or when the investor is owned by an issuer under coverage;
- A signatory's employee activities, such as board memberships, stock ownership, etc;
- Investor-client influence on the signatories, such as when an investor who is a client of the service provider is a shareholder proponent or is a dissident shareholder in a proxy contest;
- Issuer-client influence on the signatories, such as when signatories provide consulting services to companies under coverage for research; and
- Influence of other investor clients. Are there any others that should be included in this list?

Q24 If yes, please identify them. **Respondent skipped this question**

Q25 If you are a client of a signatory, how satisfied are you with the information you receive on how potential conflicts are being managed? [Scale 0 to 5, where 0 is dissatisfied and 5 is very satisfied] **4**

Respondent skipped this question

Q30 If yes, how satisfied were you with how your complaint was handled? [Scale 0-5 where 0 is not at all satisfied, 5 is very satisfied]

Q31 Many companies consider they should have the opportunity to comment on the analysis and recommendations in research reports before they are finalised. If you are an investor, which of these statements most closely reflects your view? [Tick one only]

I have no objection in principle to this practice, as long as it does not reduce the amount of time I have to make voting decisions or impact on costs

Page 8: Reporting on the Principles

Q32 At present, signatories are required to produce a public statement on how they have applied the Principles, which they update as necessary; some have chosen to update the statement every year. Signatories also produce a summary in a standard format for purposes of comparison (see BPPG website here). Do the statements adequately cover all the matters that signatories are supposed to report on under the Principles? [Yes/No]

Yes

Q33 If no, please identify which matters are not adequately reported on

Respondent skipped this question

Q34 How informative and useful are the statements? [Scale 0-5 where 0 is uninformative, 5 is very informative]

Respondent skipped this question

Q35 How might the statements be made more useful?

We were not aware of the mandatory statements. A requirement to actively provide them annually to clients may be helpful.
